PROFILE

I am a qualified IT professional with three years of experience in development and deployment of applications using following skillset. Also having experience in agile(SCRUM) development process with offshore teams.

SKILLS

- Core Java, Java 8
- Spring Boot, J2EE
- MySQL
- Python, Apache Airflow
- Rest APIs, microservices
- ReactJS, HTML, CSS, JS
- AWS, Docker
- Git, Gitlab CICD, JIRA, Confluence
- System Design(LLD)

EXPERIENCE

SENIOR SOFTWARE ENGINEER

ValueLabs LLP Hyd

2022 - Present

- I am currently engaged in a team responsible for developing microservices-based applications using Java8, python and MySQL for an offshore client project .
- This is responsible for collecting data from users process it and make it useful for media companies to show right ads to right people.
- Developed an optimized version of Airflow DAG which is saving almost five million dollars of client along with that built automation tools in python.
- Additionally, I am leveraging various AWS services and adhering to DevOps methodologies throughout the project lifecycle.

SOFTWARE ENGINEER

ValueLabs LLP Hyd

2021 - 2022

- Worked on In-house project called 'Project Management System'
- Worked on Microservices as a Full Stack Developer where I developed Restful APIs for different services in the project as per requirement using Java8, Spring Boot . For database we used MySQL, and ReactJS as frontend.
